

State of Hesse

Green Bond 2025 – Reporting Allocation and Impact Report

As of September 2025

Introduction

Dear Ladies and Gentlemen,

Hessen remains a pioneer in sustainable finance: We have already placed our third Green Bond on the international capital market. With a volume of 1.5 billion euros, it marks the largest Green Bond issued by a German federal state to date. We are strongly promoting ecologically sustainable expenditures. In doing so, Hessen is not only leading by example but is also actively contributing to the reduction of greenhouse gases and CO₂ emissions.

In this Impact Report the State of Hessen discloses the complete allocation of the bond proceeds to environmental expenditures already made from the issuance of the third Green Bond. Furthermore, we demonstrate the positive impact associated with the bond with clear and verifiable key figure in order to fulfill our self-imposed obligations as an issuer of Green Bonds.

Nature and environmental protection are integral parts of our policy. Sustainability is anchored as a state goal in the Hessian Constitution. This shows how essential it is for the State of Hessen to take responsibility for its citizens. We contribute to this objective by issuing our Green Bond.

Sincerely,

Prof. Dr. R. Alexander Lorz

Hessian Minister of Finance

Deal Spotlight: 2.900% June 2035 Green Bond

On June 10, 2025, the State of Hessen successfully issued its third **Green Bond** with an issuance volume of EUR 1.5 billion.

During the marketing of the new framework for Hessen's third Green Bond, 24 investors participated in one-on-one discussions. The high demand was also reflected in the final order book of the transaction, which amounted to over EUR 6.0 billion.

With an issuance volume of EUR 1.5 billion, the 10-year transaction represents the **largest bond of a European region in Green format to date**.

24 individual investor meetings prior to the transaction

High quality order book with over 154 participants

Alignment with ICMA Green Bond Principles

Transaction Overview

Issuer Rating (S&P / Scope)	AA+ / AAA
Pricing Date	10 June 2025
Maturity Date	18 June 2035
Coupon	2.900% p.a.
Size	EUR 1.5 billion
Spread vs. Mid-Swap	+40 bps
Spread vs. Benchmark	+41.6 bps

Order Book Composition

Geographical Distribution

Investor Type

- Banks
- Fund Managers
- Central Banks / Official Institutions
- Insurance Companies

Reporting

Allocation and Impact Report

Hessen is committed to publishing a **Green Bond Report** on its website (<https://finanzen.hessen.de>), which will be published annually at the latest from the year following the issuance, until the full allocation of the issuance proceeds.

Thanks to careful preparation, the proceeds of the third Green Bond could be allocated promptly after the issuance. With this publication, Hessen fulfills its self-imposed obligation and reports on the complete allocation of the bond proceeds as well as the achieved impacts of the third Green Bond.

Allocation Report

- Hessen commits to transparent reporting on the **allocation of the Eligible Green Expenditures (Allocation Report)**. The Allocation Report contains details on the assignment of the issuance proceeds to the Eligible Green Expenditures.
- The proceeds of the Green Bond will be used – in compliance with the **principle of overall budget coverage** and based on the budget plan – for the financing of eligible expenditures made in the two fiscal years preceding the issuance, in accordance with recognized market standards. An **ideal allocation** to concrete projects is made according to the criteria of the Green Bond Framework from the state budget 2023 and 2024.*

Impact Report

- The reporting will also include an **Impact Report**, in which measurable impacts are assessed and published.
- The Impact Report may be valid for several years and updated as needed. It contains the presentation of actual expenditures and key figures (CO₂ savings or other climate-relevant impact indicators) on an aggregated basis per expenditure category.
- Impact reports may include the following information: quantitative information regarding environmental impacts or relevant performance indicators (e.g., train-km performance, funding amount, number of financed measures), analytical reports on the environmental efficiency and performance of the selected expenditures, and the presentation of expenditures.

* The expenditures are taken from the state budget accounts, which are audited annually by the Hessian Court of Audit

Final allocation towards eligible green expenditures

Breakdown by ICMA GBP, UN SDGs and European Environmental Objectives

Allocation to the strategic priorities of the focus areas			
in EUR million	2023	2024	Total
Description	Actual Expenditure	Actual Expenditure	Actual Expenditure
Eco-friendly public transport	634.01	672.43	1.306.44
Further climate and environmental protection measures	66.78	106.71	173.49
Measures concerning forests	71.63	56.95	128.58
CO ₂ -neutral state administration / energy efficiency of public buildings	46.53	57.13	103.66
Sustainable (waste) water management	26.40	28.20	54.60
Climate plan	13.63	16.62	30.25
Organic farming and nature conservation	8.23	9.04	17.27
Eligible green expenditures made	867.21	947.08	1.814.29
Net Proceeds of the Third Green Bond			1.493.46

* Allocation according to the lead category; rounded to two decimal places

Eligible and actual green expenditures by UN SDGs*

Allocation according to Framework from 29/04/2025

* Displayed on a logarithmic scale; allocation according to the lead category

Project #1

Promotion of public transport services including pupils and excursion tickets

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Eco-friendly public transport	Clean transportation	13-Climate Action	Climate change mitigation
Description	- The additional free state funds provided to promote public transport services are intended to ensure a corresponding passenger service, continuously strengthen it and improve it in line with demand - In 2024, about 48.01% of the total expenditure of the three Hessian transport associations on means of transport was distributed on rails and about 51.99% on other public transport - From 2023, this project will also include the expenses for the Hesse school and excursion ticket (project no. 6 of the 2nd Green Bond 2023)		
Eligible Green Expenditures	2023: EUR 222.92 million 2024: EUR 263.92 million		
Expected impact	Train km performance in local rail passenger transport: 2023 (actual): 58,387,641* 2024 (actual): 55,547,959*		
Reference to the budget (2023/2024)	Section 7 Chapter 15 Product 69		

* The expenditures of project 1 and project 2 will be used for the same rail network. As such, the same impact figures are shown for both projects.

Project #2

Promotion of public transport services

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Eco-friendly public transport	Clean transportation	13-Climate Action	Climate change mitigation
Description	- The additional free state funds provided to promote public transport services are intended to ensure a corresponding passenger service, continuously strengthen it and improve it in line with demand - In 2024, about 48.01% of the total expenditure of the three Hessian transport associations on means of transport was distributed on rails and about 51.99% on other public transport		
Eligible Green Expenditures	2023: EUR 203.58 million 2024: EUR 236.58 million		
Expected impact	Train km performance in local rail passenger transport: 2023 (actual): 58,387,641* 2024 (actual): 55,547,959*		
Reference to the budget (2023/2024)	Section 17 (7) Chapter 30 Product 22		

* The expenditures of project 1 and project 2 will be used for the same rail network. As such, the same impact figures are shown for both projects.

Project #3

Financing of local transport facilities

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Eco-friendly public transport	Clean transportation	13-Climate Action	Climate change mitigation
Description	- The funds are used to co-finance public transport funding projects as well as the projects of the Municipal Transport Financing Act and local rail passenger transport, including S-Bahn projects - These measures include, for example, the construction of the Regionaltangente West light rail line, the U2 extension, and the four-track expansion of the S6		
Eligible Green Expenditures	2023: EUR 91.41 million 2024: EUR 71.01 million		
Expected impact	Number of measures financed per year: 2023: 55 2024: 77		
Reference to the budget (2023/2024)	Section 17 (7) Chapter 30 Product 24		

Four-track extension of the S6 to Friedberg

 Green Bond

 Green Bond
2023
 Green Bond
2025

EU environmental objectives

Climate change mitigation

- Introduction of a state-wide job ticket (free travel authorization) for all state employees
- Offer and incentive for each individual to reduce individual traffic, without financial self-contribution, and thus contribute to sustainable environmental and climate protection
- The goal is to shift to low-emission modes of transportation

- 2023: EUR 58.39 million
- 2024: EUR 64.00 million

- 2023: 172,432 2023: /
- 2024: 175,504 2024: 13,756

Section 3 Chapter 1 Product 7

1) The State of Hesse commissioned an external evaluation of the climate impact of the "LandesTicket Hessen" ticket. This evaluation was conducted by *infas Institut für angewandte Sozialwissenschaften GmbH* in 2024 and determined an expected CO₂ saving of 13,756 tons of CO₂e per year.

Project #5

Broadband expansion

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Further climate and environmental protection measures	Energy efficiency	9-Industry, Innovation and Infrastructure	Climate change mitigation
Description	- The goal of the gigabit promotion is the further development of the existing broadband infrastructure and the creation of gigabit-capable infrastructures to enable innovation, competition, employment, and sustainable economic growth in all regions - By 2025, gigabit-capable connections are to be available nationwide in Hesse, and fiber-optic connections to the home are to be available by 2030		
Eligible Green Expenditures	2023: EUR 26.51 million 2024: EUR 78.03 million		
Expected impact	Percent of households in Hesse with fiber optic connection (FTTB/H): 2023: 21.13% 2024: 31.92%		
Reference to the budget (2023/2024)	Section 14 Chapter 20 Product 1		

Project #6

12-point forest plan (“Zukunft Wald”)

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Measures concerning forests	Environmentally sustainable management of living natural resources and land use	15-Life on Land	Climate change mitigation
Description	▪ The 12-point Forest Plan promotes reforestation and ensures comprehensive support for the removal of forest damage caused by storms, drought and pests ▪ In order to curb climate change, Hesse has set itself the goal of intensifying the development of species-rich and climate-stable mixed forests and building the forest of tomorrow		
Eligible Green Expenditures	▪ 2023: EUR 50.25 million ▪ 2024: EUR 34.60 million		
Expected impact	Number of disbursed applications forest owners and timber marketing organizations (HVO) per year: ▪ 2023: 1,498 ▪ 2024: 173		
Reference to the budget (2023/2024)	Section 9 Chapter 11 Product 3 Appendix 3 Section 9 Chapter 22 Products 8, 10		

Project #7

Funding of measures in accordance with the Mobility Promotion Act / Public Transport

Green Bond
2021

Green Bond
2023

Green Bond
2025

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Eco-friendly public transport	Clean transportation	13-Climate Action	Climate change mitigation

Description	- The initiative promotes measures to improve traffic conditions and foster sustainable mobility development in Hesse's municipalities - In particular, the construction and expansion of rail infrastructure and acceleration measures for public transport are planned - Funds for municipal road construction are explicitly excluded for an allocation for the Green Bond
Eligible Green Expenditures	2023: EUR 45.75 million 2024: EUR 25.40 million
Expected impact	Number of measures financed per year: 2023: 49 2024: 84
Reference to the budget (2023/2024)	Section 7 Chapter 15 Product 68

Project #8

CO₂-neutral state administration, COME universities

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
CO ₂ -neutral state administration / energy efficiency of public buildings	Energy efficiency	11-Sustainable Cities and Communities	Climate change mitigation
Description	- The energy efficiency program COME-Universities serves to sustainably increase energy efficiency and CO₂ savings in university buildings in Hesse - The state's requirements are above the legal energy standard according to GEG 2020 - With the participation of eleven universities and colleges, around 40 construction projects are to be implemented by 2025		
Eligible Green Expenditures	2023: EUR 21.40 million 2024: EUR 26.80 million		
Expected impact	CO₂ savings in tons per year: 2023: 544.07 2024: 681.38		
Reference to the budget (2023/2024)	Section 18 Chapter 1 Product 13		

Project #9

Renaturation - Implementation of the European Water Policy in the field of water protection for the preservation and improvement of water quality

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Sustainable (waste) water management	Sustainable water and wastewater management	14-Life Below Water	Sustainable use and protection of water and marine resources
Description	- For the implementation of the Water Framework Directive in Hesse, all water bodies are to be brought into good ecological status by 2027 within the framework of EU requirements - Renaturation measures improve the water structure and ecological continuity - In order to further advance the realization of the goal, the program "100 Wild Streams for Hesse" was launched, among other things. In the course of the programme, 100 Hessian streams will be specifically selected and renaturalised as models		
Eligible Green Expenditures	2023: EUR 16.40 million 2024: EUR 22.94 million		
Expected impact	Length of developed waterways in km: 2023: 47.50 2024: 74.26		
Reference to the budget (2023/2024)	Section 17 (9) Chapter 41 Product 38		

Project #10

State Energy Agency

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Further climate and environmental protection measures	Energy efficiency	7-Affordable and Clean Energy	Climate change mitigation
Description	- On behalf of the state government, the Hesse State Energy Agency (LEA) takes on central tasks in the implementation of the energy transition and climate protection - The LEA offers information, initial consultations and accompanying support in the selection and implementation of measures for climate protection, energy efficiency, transport and local mobility, energy saving or the expansion of renewable energies in one's own environment		
Eligible Green Expenditures	2023: EUR 18.08 million 2024: EUR 16.91 million		
Expected impact	Number of consultations per year: 2023: 3,251 2024: 3,626		
Reference to the budget (2023/2024)	Section 7 Chapter 5 Product 5 Section 9 Chapter 21 Product 2a		

Project #11

Expansion of public transport and cycling

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Eco-friendly public transport	Clean transportation	11-Sustainable Cities and Communities	Climate change mitigation
Description	- The State of Hesse provides financial support for municipal initiatives aimed at enhancing walking and cycling infrastructure, in line with its local mobility promotion guidelines - Funding is allocated for structural improvements to boost the attractiveness and safety of pedestrian and bicycle traffic, particularly through the reconstruction of junctions along cycle routes and pedestrian networks		
Eligible Green Expenditures	2023: EUR 11.97 million 2024: EUR 11.52 million		
Expected impact	Number of measures financed per year: 2023: 73 2024: 92		
Reference to the budget (2023/2024)	Section 17 (7) Chapter 30 Product 51		

Main Cycle Network Hesse

Project #12

Increasing energy efficiency and the use of renewable energies, energy-efficient renovation of municipal buildings

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
CO ₂ -neutral state administration / energy efficiency of public buildings	Energy efficiency	11-Sustainable Cities and Communities	Climate change mitigation
Description	- Funding of municipalities in accordance with the Municipal Energy Directive for the implementation of the objectives of the Hessian Energy Act - The state supports investment measures in municipal buildings aimed at reducing final energy consumption, increasing the use of renewable energies, enhancing highly efficient combined heat and power generation, and limiting climate-relevant emissions		
Eligible Green Expenditures	2023: EUR 7.55 million 2024: EUR 12.07 million		
Expected impact	Number of measures financed per year: 2023: 45 2024: 46		
Reference to the budget (2023/2024)	Section 17 (7) Chapter 30 Product 50		

Funding of eligible individual measures

Project #13

Supply to the Kellerwald-Edersee National Park

Hesse's focus area		ICMA GBP Category	UN SDG	EU environmental objectives
Measures concerning forests		Environmentally sustainable management of living natural resources and land use	15-Life on Land	Protection and restoration of biodiversity and ecosystems
Description	▪ The State of Hesse finances nature conservation and landscape conservation in the Kellerwald-Edersee National Park ▪ The goal is to support the natural development of habitats within the park, including areas that are part of the UNESCO World Heritage Beech Forests, and to protect the biodiversity found there. The national park also contributes significantly to sustainable development in the region, offering extensive opportunities for education and nature experiences			 Kellerwald-Edersee National Park
Eligible Green Expenditures	▪ 2023: EUR 9.24 million ▪ 2024: EUR 8.55 million			
Expected impact	Amount allocated in EUR per ha national park area: ▪ 2023: 1,202.00 ▪ 2024: 1,112.00			
Reference to the budget (2023/2024)	Section 9 Chapter 11 Product 4 Appendix 3			

Project #14

Feed to the Hessen-Forst state enterprise

Hesse's focus area		ICMA GBP Category	UN SDG	EU environmental objectives
Measures concerning forests		Environmentally sustainable management of living natural resources and land use	15-Life on Land	Climate change mitigation
Description	- The Hessen-Forst state enterprise ensures multifunctional sustainable forest management in Hesse - The project finances environmental protection in the state forest. These services include, among other things: - Conservation of species and development of biotopes outside the designated protected areas - Climate change mitigation and adaptation - Versatile forest structure - Aspects of recreational use are not included in the green bond			
Eligible Green Expenditures	2023: EUR 8.31 million 2024: EUR 8.40 million			
Expected impact	Amount allocated in EUR per ha operational area state forest: 2023: 15.64 2024: 15.92			
Reference to the budget (2023/2024)	Section 9 Chapter 11 Product 3 Appendix 3			

Project #15

Climate Change Directive Investment Measures

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Further climate and environmental protection measures	Adaptation to climate change	13-Climate Action	Climate change mitigation
Description	The benefits of the funding product are intended to provide municipalities with incentives to plan and implement municipal climate protection projects and other measures of the Hesse Climate Plan		
Eligible Green Expenditures	2023: EUR 9.77 million 2024: EUR 5.94 million		
Expected impact	Number of measures financed per year: 2023: 78 2024: 67		
Reference to the budget (2023/2024)	Section 17 (9) Chapter 41 Product 40		

Ministry of the Environment promotes ten e-cargo bikes in Rodgau

Project #16

Municipal flood protection (retention basins)

Hesse's focus area		ICMA GBP Category		UN SDG		EU environmental objectives	
Sustainable (waste) water management		Adaptation to climate change		13-Climate Action		Climate change adaptation	
Description		▪ Funding to municipalities for flood protection as well as for the planning, expansion or rehabilitation of hydraulic engineering facilities and measures that serve the drainage of dike-protected areas ▪ Implementation of ecological flood protection measures and floodplain restoration as well as creation of concepts for flood and heavy rain events					
Eligible Green Expenditures		▪ 2023: EUR 7.60 million ▪ 2024: EUR 4.69 million					
Expected impact		Number of measures financed per year: ▪ 2023: 20 ▪ 2024: 9					
Reference to the budget (2023/2024)		Section 17 (9) Chapter 41 Product 38					

Project #17

CO₂-neutral state administration, energy efficiency, building standards for new buildings and renovation measures

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
CO ₂ -neutral state administration / energy efficiency of public buildings	Eco-friendly buildings	11-Sustainable Cities and Communities	Climate change mitigation
Description	- The State of Hesse is striving for a climate-neutral state administration by 2030. From 2023, the standards according to the new Hessian Energy Act will apply - For new buildings, the standard "Efficiency Buildings (Federal Government) 40" must be observed, and for renovations, the standard "Efficiency Buildings (Federal Government) 55" must be observed. This means that the permissible primary energy requirement under the Building Energy Act must be undercut by at least 60 or 45 percent		
Eligible Green Expenditures	2023: EUR 6.52 million 2024: EUR 5.56 million		
Expected impact	CO₂ savings in tons per year: 2023: 675.71 2024: 576.22		
Reference to the budget (2023/2024)	Section 18		

Project #18

CO₂-neutral state administration, COME Mobility

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
CO ₂ -neutral state administration / energy efficiency of public buildings	Clean transportation	9-Industry, Innovation and Infrastructure	Climate change mitigation
Description	- As part of the "COME-Mobility" program of the CO₂-neutral state administration, the Hessian State Construction and Real Estate Authority (LBIH) is driving the shift to an electric vehicle fleet on behalf of the HMdF - In addition to the development of a nationwide charging infrastructure, over 1,000 new bicycle parking spaces were built at state offices in 2023. In 2024, 644 additional bike parking spaces were built		
Eligible Green Expenditures	2023: EUR 5.50 million 2024: EUR 6.37 million		
Expected impact	Number of charging points installed: 2023: 299 2024: 565		
Reference to the budget (2023/2024)	Section 18 Chapter 1 Product 15		

Charging infrastructure
District Court Fritzlar

Project #19

Climate Change Directive Non-Investment Measures

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Further climate and environmental protection measures	Adaptation to climate change	13-Climate Action	Climate change mitigation
Description	- Promotion of measures to reduce climate-damaging greenhouse gases by improving climate protection, adapting to climate change and increasing the use of renewable energies - Non-investment measures include studies and analyses to determine the climate-related municipal hazard potential, climate analyses, simulations and analyses of runoff routes and necessary measures in the event of heavy precipitation, and municipal information measures on climate protection and climate adaptation		
Eligible Green Expenditures	2023: EUR 5.92 million 2024: EUR 4.33 million		
Expected impact	Number of measures financed per year: 2023: 49 2024: 39		
Reference to the budget (2023/2024)	Section 9 Chapter 21 Product 2a/b		

Project #20

Education, advice and technical information for agriculture and horticulture

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Organic agriculture and nature conservation	Environmentally sustainable management of living natural resources and land use	13-Climate Action	Protection and restoration of biodiversity and ecosystems
Description	- Agricultural and horticultural businesses are sensitised to issues of climate protection and adaptation to climate change through advice, specialist events and publications - Expertise on reducing greenhouse gas emissions and adapting to changing climatic conditions is imparted in a customer-oriented and practical manner using a variety of methods, media and platforms - In addition, individual company consultations are provided directly on site. In the agricultural or horticultural business, farm-specific adaptation options to climate change are developed and farm-specific climate balances are worked out together with the farm management		
Eligible Green Expenditures	2023: EUR 4.52 million 2024: EUR 5.33 million		
Expected impact	Number of customer contacts per year: 2023: 74,025 2024: 121,022		
Reference to the budget (2023/2024)	Section 9 Chapter 11 Product 1 Appendix 1		

Project #21

CO₂-neutral state administration, COME Solar

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
CO ₂ -neutral state administration / energy efficiency of public buildings	Energy efficiency	7-Affordable and Clean Energy	Climate change mitigation
Description	- As part of the program, state offices managed by the Hesse State Office for Construction and Real Estate will be equipped with photovoltaic and solar thermal systems - The primary goal is to significantly enhance the use of solar energy for both heat generation and self-produced electricity in state properties		
Eligible Green Expenditures	2023: EUR 4.50 million 2024: EUR 5.12 million		
Expected impact	Realized installed capacity (kWp): 2023: 748 2024: 1,387		
Reference to the budget (2023/2024)	Section 18 Chapter 1 Product 15		

Glass College Hadamar

Project #22

Promoting the development of sustainable (and climate-neutral) universities

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Climate plan	Energy efficiency	13-Climate Action	Climate change mitigation
Description	- Universities and colleges are significant energy consumers among public properties. The State of Hesse supports the development of sustainability and biodiversity strategies, aiming for a CO₂-neutral state administration - Measures include establishing sustainability offices, creating sustainability and mobility strategies, developing energy and environmental management systems, and conducting analyses and concepts for climate-neutral universities		
Eligible Green Expenditures	2023: EUR 4.58 million 2024: EUR 4.50 million		
Expected impact	Number of measures financed per year: 2023: 31 2024: 31		
Reference to the budget (2023/2024)	Section 15 Chapter 2 Product 7		

Grüner Campus: Urban Gardening an der TU Darmstadt

Project #23

Funding programme "Energy efficiency in rental housing"

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
Further climate and environmental protection measures	Eco-friendly buildings	11-Sustainable Cities and Communities	Climate change mitigation
Description	▪ The program is designed to offer additional investment incentives and support for energy-efficient renovations in rental housing ▪ Promotion of investment projects (energy-efficient modernisation and new construction) in rented apartment buildings on the basis of benchmark values, including the corresponding KfW programmes ("Energy-efficient refurbishment" or "Energy-efficient construction")		
Eligible Green Expenditures	▪ 2023: EUR 6.50 million ▪ 2024: EUR 1.50 million		
Expected impact	Subsidized housing units per year: ▪ 2023: 160 ▪ 2024: 877		
Reference to the budget (2023/2024)	Section 7 Chapter 5 Product 25		

Project #24

HALM grassland extensification

Hesse's focus area		ICMA GBP Category	UN SDG	EU environmental objectives
Organic agriculture and nature conservation		Environmentally sustainable management of living natural resources and land use	15-Life on Land	Protection and restoration of biodiversity and ecosystems
Description	- Grassland extensification (HALM D.1) promotes the extensive cultivation of permanent grassland areas - For this purpose, farmer refrains from using fertilisers and pesticides as well as from turning and loosening soil cultivation. To maintain the openness of the area and prevent ecological succession, the land must be mowed or grazed at least once annually during the growing season			
Eligible Green Expenditures	2023: EUR 3.71 million 2024: EUR 3.71 million			
Expected impact	Hectares of extensive grassland management per year (commitment area): 2023: 61,867 2024: 70,323			
Reference to the budget (2023/2024)	Section 9 Chapter 23 Product 23f			

Project #25

Climate-friendly transport transition

Hesse's focus area		ICMA GBP Category	UN SDG	EU environmental objectives
Climate plan		Clean transportation	11-Sustainable Cities and Communities	Climate change mitigation
Description	- Numerous measures are being taken to implement the transportation turnaround in Hesse. These include projects to develop and scale up electric drives, establish a sustainable and climate-friendly passenger and freight transport system, promote sustainable mobility plans in municipalities, and conduct public relations work - For car-sharing subsidies under pilot and demonstration projects in the area of e-mobility, only fully electric vehicles that meet the aforementioned emission intensity threshold were used. Plug-in hybrids were not subsidized			
Eligible Green Expenditures	2023: EUR 3.54 million 2024: EUR 3.79 million			
Expected impact	Number of measures financed per year: 2023: 69 2024: 30			
Reference to the budget (2023/2024)	Section 7 Chapter 15 Product 73			

Project #26

Strengthening pedestrian and bicycle traffic

Hesse's focus area		ICMA GBP Category	UN SDG	EU environmental objectives
Climate plan		Clean transportation	11-Sustainable Cities and Communities	Climate change mitigation
Description	- Projects for the implementation of the local mobility strategy to strengthen walking and cycling. To this end, the following measures are to be implemented in particular: - Strengthening intermodal and climate-friendly services - Strengthening mobility in rural areas - Promotion of climate-friendly local mobility - Centre for "School Mobility Management" and the work of the Working Group on Local Mobility (AGNH)			
Eligible Green Expenditures	2023: EUR 2.23 million 2024: EUR 4.89 million			
Expected impact	Number of measures financed per year: 2023: 43 2024: 28			
Reference to the budget (2023/2024)	Section 7 Chapter 15 Product 74			

Project #27

Improving biotope networks for climate-sensitive species

Hesse's focus area		ICMA GBP Category	UN SDG	EU environmental objectives
Climate plan		Environmentally sustainable management of living natural resources and land use	15-Life on Land	Protection and restoration of biodiversity and ecosystems
Description	▪ The primary objective of this initiative is to fund large-scale, cross-border, and exemplary biotope network projects. Despite numerous collaborative efforts in the past, significant gaps remain in the biotope network, particularly in light of the unique challenges posed by climate change. The EU also advocates for the creation of ecological corridors as part of its 30% protection target ▪ This measure will prioritize technically and organizationally ambitious projects. To achieve this, existing barriers to such projects must be identified and systematically eliminated. Additionally, projects within floodplains will be designed to enhance ecological flood protection			
Eligible Green Expenditures	▪ 2023: EUR 3.29 million ▪ 2024: EUR 3.44 million			
Expected impact	Number of measures financed per year: ▪ 2023: 53 ▪ 2024: 80			
Reference to the budget (2023/2024)	Section 9 Chapter 21 Product 2d			

Project #28

Improving water retention in forests

Hesse's focus area		ICMA GBP Category	UN SDG	EU environmental objectives
Measures concerning forests		Environmentally sustainable management of living natural resources and land use	15-Life on Land	Protection and restoration of biodiversity and ecosystems
Description	▪ The initiative encompasses preparatory and operational measures in forests to enhance water retention and water availability ▪ Key operational efforts will focus on forest paths, where wet troughs and water pockets will be established ▪ Additionally, the restoration of flowing and still waters, as well as forest moors, aims to slow runoff and maintain water availability in these areas. Creating or restoring extinguishing ponds will also ensure sufficient water supply for fighting forest fire			
Eligible Green Expenditures	▪ 2023: EUR 1.72 million ▪ 2024: EUR 2.91 million			
Expected impact	Number of measures financed per year: ▪ 2023: 4 ▪ 2024: 4			
Reference to the budget (2023/2024)	Section 9 Chapter 21 Product 2d			

Project #29

Building climate-resilient forests

Hesse's focus area		ICMA GBP Category		UN SDG		EU environmental objectives	
Measures concerning forests		Environmentally sustainable management of living natural resources and land use		15-Life on Land		Protection and restoration of biodiversity and ecosystems	
Description		▪ The primary focus of this initiative is to reforest areas left barren by the droughts of 2018 to 2020 and pest infestations ▪ The goal is to establish stable mixed forests suited to their locations, featuring a high proportion of climate-resilient oaks, noble deciduous trees, and silver firs. Although reforestation with these species requires significantly more effort, it greatly enhances biodiversity and other forest functions ▪ This process will be supported by research and monitoring to refine the measures further. Additionally, the initiative includes constructing or upgrading of forest edges to improve the internal forest climate					
Eligible Green Expenditures		▪ 2023: EUR 2.11 million ▪ 2024: EUR 2.49 million					
Expected impact		Number of measures financed per year: ▪ 2023: 6 ▪ 2024: 6					
Reference to the budget (2023/2024)		Section 9 Chapter 21 Product 2d					

Project #30

Wastewater treatment plant improvement (4th purification stage)

Hesse's focus area Sustainable (waste) water management	ICMA GBP Category Sustainable water and wastewater management	UN SDG 6-Clean water and sanitation	EU environmental objectives Sustainable use and protection of water and marine resources
Description	- The initiative involves implementing advanced wastewater treatment measures, such as reducing phosphorus and nitrogen inputs and constructing a fourth treatment stage at sewage plants, particularly where trace substances may threaten drinking water quality - Municipalities are required to implement these measures, with support from voluntary state contributions		
Eligible Green Expenditures	2023: EUR 2.40 million 2024: EUR 0.57 million		
Expected impact	Number of measures financed per year: 2023: 2 2024: 5		
Reference to the budget (2023/2024)	Section 17 (9) Chapter 41 Product 38		

Project #31

CO₂-neutral state administration

Hesse's focus area	ICMA GBP Category	UN SDG	EU environmental objectives
CO ₂ -neutral state administration / energy efficiency of public buildings	Energy efficiency	11-Sustainable Cities and Communities	Climate change mitigation
Description	- The project goal is to make the entire state administration climate-neutral by 2030. This is to be achieved through energy efficiency plans, building renovation programmes and energy management systems, among other things - Primarily through the comprehensive procurement of green electricity, a reduction of CO₂ emissions by at least approximately 150,000 tons per year can be achieved		
Eligible Green Expenditures	2023: EUR 1.06 million 2024: EUR 1.21 million		
Expected impact	CO₂ savings in tons per year: 2023: 160,000 2024: 150,000		
Reference to the budget (2023/2024)	Section 6 Chapter 1 Product 6
